

Powder Chlor - H Stabilised Chlorine Sanitiser

Advantages

- Economical
- Kills bacteria, yeast and mould
- Leaves surfaces clean and corrosion free
- Fully biodegradable
- Can be used at any temperature up to 60°C
- Non-corrosive to stainless steel / aluminium

How to use

Use 30 gram per 10 litres of water. This will give 135 ppm of available chlorine. Mop or wipe the surface to be cleaned, and then rinse off with clean water.

Physical Properties

Appearance	: Powder
Colour	: White
Odour	: Pungent Chlorine
pH	: +/- 12-13
Specific Gravity	: +/- 1.1
Water Solubility	: Miscible in all proportions
